Subject: Houlihan Lokey 3-Month Financial Restructuring Internship (Q2, 2026)

Dear Houlihan Lokey Recruiting Team,

As a full-time MBA candidate at WHU Otto Beisheim School of Management with hands-on M&A live-deal experience, I am eager to contribute to your team and deepen my exposure to restructuring advisory. I am drawn to the complexity, stakeholder dynamics, and counter-cyclical nature of restructuring, and view it as a long-term career path combining analytical rigor with strategic problem-solving.

Currently, I work in the M&A team at TÜV Süd AG, reporting directly to the Head of M&A and supporting live buy-side mandates across cross-border transactions and growth investments. I build valuation models (DCF, LBO, transaction multiples), screen acquisition targets, and draft transaction materials including LOIs. Collaborating closely with M&A Directors has sharpened my analytical skills and taught me to deliver client-facing work under tight timelines.

In previous roles, I often stepped into high-pressure environments requiring structure, prioritization under uncertainty, and stakeholder alignment. These experiences are directly relevant to the intensity of financial restructuring.

I am motivated by Houlihan Lokey's reputation as a global leader in restructuring, known for advising on complex, high-profile transactions and representing both creditor and debtor interests with intellectual independence. I admire the firm's emphasis on technical excellence and its collaborative, entrepreneurial culture.

Beyond academics, I founded and lead the WHU Finance Club Düsseldorf, to strengthen campus finance engagement. I am fluent in English and German, and my international background across Germany, Singapore, Brazil, and Dubai has taught me to collaborate across cultures and communicate effectively.

Thank you for considering my application.

Yours Sincerely,

Dalvinjit Kaur Gill
