LETTER OF RECOMMENDATION

Today, I am pleased to recommend Angelo Guido, a 6th-semester Marketing Management student at IU International University. As Angelo's site manager and supervisor, I have had the opportunity to observe his professional skills and personal qualities at close quarters. I can confidently say that he is a talented and dedicated student who undoubtedly stands out from his peers.

Angelo is exceptionally solution-focused and reliable. In his day-to-day work, he has always been able to overcome complex challenges with creative approaches to our complete satisfaction, consistently delivering on time and accurately. His ability to develop innovative solutions was particularly evident in his project to implement AI tools such as ChatGPT, where he increased the conversion rate by an impressive ten percent and successfully implemented this technology into the sales process. I appreciate Angelo's quick thinking and willingness to take on new challenges enthusiastically.

He has shown remarkable stamina and excellent presentation skills in front of large audiences. He successfully demonstrated his organizational skills in managing fairs, open days, or professorial events. IU International University also benefited from Angelo's marketing skills, contributing to our institution's positive public perception and representation.

What sets him apart, however, is his unwavering commitment to excellence. He set the highest standards for all his tasks and projects and ensured that they were not only met, but often exceeded. He proved to be a competent interlocutor and, through his ambition, a role model for the whole team. Furthermore, he demonstrated this by taking the initiative when discussing strategic measures in sales and marketing, or by surprising us with spontaneous presentations to solve much-discussed problems.

Angelo has a good reputation in his student environment and work environment due to his outstanding achievements. In conclusion, I would therefore strongly recommend Angelo Guido to a Masters course and to future employers for his impressive qualities, to which he will undoubtedly be an asset.

Please do not hesitate to contact me if you have any further questions.

Kind regards,

Jendrik Kautz, Campus Director
