Application for an Perella Weinberg Partners Q2 2026 Advisory Off Cycle Internship Programme in Munich

Dear Sir or Madam,

As a full-time MBA candidate at WHU – Otto Beisheim School of Management with hands-on M&A live-deal experience, I am eager to contribute to a PWP sector or deal team and expand my exposure to work as a member of a team providing a broad range of advisory services to Perella Weinberg's clients. I am particularly motivated to deepen my financial valuation skills, gain sell-side transaction experience, and deepen my live transaction exposure while developing the analytical, relationship-building, and client-facing tools needed to successfully launch a career in investment banking.

Currently, I work in the M&A team at TÜV Süd AG, reporting directly to the Head of M&A and supporting live buy-side mandates across cross-border transactions and growth-stage investments. I have built and owned valuation models including DCF, LBO, and transaction multiples, conducted target screening across industrials and energy verticals, and drafted key transaction materials such as LOIs and pitch decks. In one transaction, I supported the valuation work for a proposed €5–6 million acquisition of a renewable energy target. I built the integrated financial model and delivered pricing guidance that shaped our final offer and informed the LOI submitted to the seller. I work closely with M&A Directors on live mandates, sharpening my technical modelling skills, commercial judgment, and ability to deliver client-ready materials under tight timelines. This showcases my intellectual curiosity and strong problem-solving aptitude supported by a solid grasp of core financial concepts.

I am drawn to the opportunity at Perella Weinberg Partners because of its deep sector specialization and global platform, which enable cross-border deal execution and nuanced industry insights. The firm's track record advising on complex, high-profile M&A, restructuring, and strategic mandates reflects the caliber of work I aspire to contribute to. I am especially motivated by the culture where interns are treated as junior team members, gaining meaningful exposure to valuation, client interaction, and execution from day one.

Beyond academics and my current deal experience, I founded and lead the WHU Finance Club Düsseldorf to foster finance engagement on campus and organize speaker events and workshops that connect students with industry practitioners. This initiative reflects my commitment to shaping an MBA experience that goes beyond the classroom and actively supports my pivot into investment banking post-MBA. I am fluent in English and German and have lived and worked across multiple regions, which helps me collaborate effectively on cross-border mandates.

I am available for a full-time internship starting in June 2026 for a period of three months, prior to graduating from my MBA program, which will serve as a critical stepping stone toward transitioning full time into investment banking. I do look forward to having my application considered.

Yours sincerely,
Dalvinjit Gill
