Letter of Reference for Ferdinand Seidl

Mr. Seidl has attended my lecture and seminar of the elective specialization course “Behavioral Finance”, both of which include several types of examinations (presentation, discussion and exam). This allowed me to gain a rather broad picture of Mr. Seidl’s skills.

In particular, Ferdinand Seidl is an exceptionally innovative and creative mind, who shows professionalism and high standards in his work. In my class, he distinguished himself by regularly asking questions that led to exciting discussions. He worked with exceptional dedication on the projects and managed to exceed my expectations on several occasions. Mr. Seidl showed a keen interest in the financial topics discussed and demonstrated strong quantitative, analytical and communication skills.

He is a highly motivated student with the ambition to achieve his goals. I therefore have no hesitation in recommending Ferdinand Seidl for your master’s programme. If you have any further questions, please feel free to contact me.

Yours sincerely,

Matthias Stefan
