

INTERNSHIP CERTIFICATE

Mr. Josef Karbasie, born on April 08nd, 2002 resident Hallestr. 22, 53125 Bonn, was employed as an intern by our company from June 1st, 2022 to August 31st, 2022.

SSC Consult is a leading, independent corporate finance and M&A advisory firm serving the small and mid cap markets with extensive transaction experience in a significant number of sectors on all sides of corporate transactions, including acquirers and vendors, creditors and debtors, financing institutions and financial investors. We offer professional support throughout all stages of a transaction, ranging from the establishment of strategic and financial objectives to a successful project close.

During his internship Josef assisted us in various projects. His activities included in particular:

- Research and analysis of markets, industries and market players using several data bases such as Orbis, Capital IQ and MergerMarket and processing the results and findings in an appropriate manner;
- Identification and address of potential strategic and financial investors;
- Conducting approach of national and international investors;
- Preparation of company profiles and participation in the preparation of presentations and other project documents such as Longlist or Information Memorandum;
- Assisting in the valuation of companies in various industries using the valuation methods commonly used by investment banks (e.g. CCA, CTA);
- Ongoing maintenance and updating of a comprehensive inhouse database of potential financial investors;

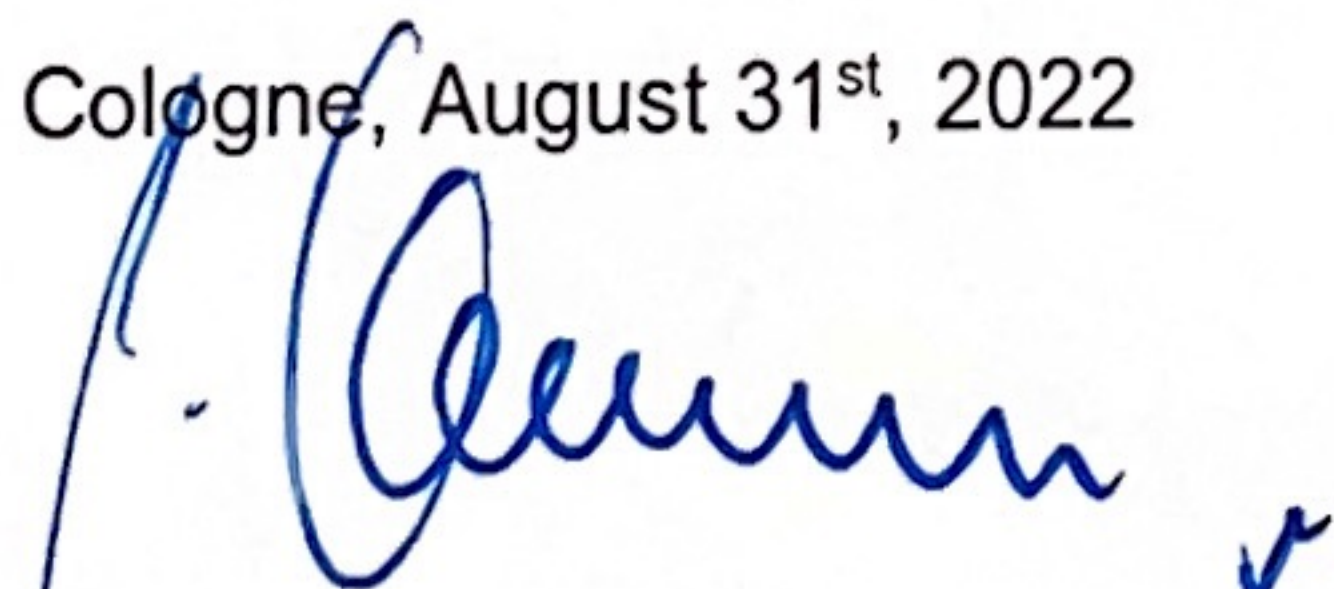

Josef quickly familiarized himself with the various areas of responsibility thanks to his good general knowledge and his ability to grasp things quickly. In completing his tasks, he distinguished himself both through a structured approach and good analytical skills.

He proved to be very reliable and consistent and was capable of working independently. Even under difficult conditions and under great time pressure, he completed his tasks assigned to our utmost satisfaction.

In our experience Josef was a very friendly and engaged intern, who quickly integrated into our team. His conduct towards superior partners and colleagues was impeccable at all times.

We thank Josef for his valuable support and wish him all the best and continued success in his future career and personal life.

Cologne, August 31st, 2022
