### **Application for the Diversity Scholarship—Athletic Excellence**

Dear Sir or Madam,

Competitive sport has shaped my life from an early age. As a national and international tennis player, I have learned that excellence is not a single achievement but the result of discipline, resilience, and continuous improvement. Applying for the Diversity Scholarship for Athletic Excellence is therefore not only a financial consideration for me but also a decisive step in enabling me to continue pursuing both my academic and athletic ambitions at the highest level.

Throughout my career, I have competed nationally and internationally, including multiple appearances in the final rounds of international ITF tournaments. In 2025, I became the U18 State Champion of Rhineland-Palatinate and was appointed to the state squad. Previously, I won the U14 State Championship in Niedersachsen-Bremen. Competing at this level has required consistent training, travel across countries, and participation in high-level tournaments. My long-term athletic goal is to compete on the professional tour. To realistically pursue this dream while beginning my studies, financial flexibility is essential.

High-performance sport involves significant expenses, including coaching, tournament fees, travel, and equipment. Without financial support, balancing a demanding academic program with the need to work part-time would significantly limit my ability to train and compete at the necessary level. This scholarship would relieve that financial pressure and allow me to fully focus on my studies at Frankfurt School of Finance & Management while continuing to train professionally and compete internationally. It would provide me with the opportunity to sustain my athletic performance and pursue my ambition of competing on the professional tour without compromising academic excellence.

Beyond financial necessity, I believe I am a strong candidate for this scholarship because of the qualities I have developed through competitive sport and the value I will bring to the Frankfurt School community. Tennis at a national and international level has taught me discipline, structured time management, resilience under pressure, and the ability to perform consistently in competitive environments. I have learned to handle setbacks constructively, analyze my performance critically, and continuously strive for improvement. These qualities directly translate into academic and professional contexts. At Frankfurt School, I will contribute this performance-oriented mindset to group projects, student initiatives, and academic discussions. Through initiatives such as FS Tennis, I aim to actively engage in campus life and connect with fellow students who share similar values of ambition and commitment. My experience as a certified tennis coach has further strengthened my leadership skills and sense of responsibility, as I guide younger athletes and support their development.

The Diversity Scholarship would not only support my personal journey but also enable me to represent Frankfurt School as a student-athlete who combines academic ambition with athletic excellence. I am determined to uphold the values of commitment, perseverance, and integrity both on court and in the classroom.

Thank you for considering my application.

Yours sincerely,  
Pavle Nikolin
