Internship Certificate

Mr. Niklas Rieck, born 02/26/2001, successfully completed an internship in our business development and sales department from 11/01/2024 through 02/16/2024.

Maddox AI is one of the leading German high-tech start-ups in the field of artificial intelligence and offers an AI-based solution for visual quality control to a diverse and rapidly growing customer base. In this regard, Maddox AI uniquely combines consulting excellence, extensive software engineering experience and cutting-edge AI research from the University of Tübingen and the Max-Planck-Institute for Intelligent Systems.

During his internship Mr. Rieck worked inter alia on the following topics:

- Conducting extensive research to identify appropriate industries, companies, and potential customers for Maddox AI, thereby assisting us in the development of an effective go-to-market strategy
- Engaging with potential customers through various channels, including phone, LinkedIn, and email, to generate new leads and effectively promote and position Maddox AI's products and services
- Consulting with customers to identify their core business challenges and independently devising how Maddox AI can aid in achieving their business objectives
- Conducting effective calls and meetings with senior executives, directors, and other high-level decision-makers, confidently introducing Maddox AI and presenting its value proposition
- Engaging in strategic projects alongside the leadership team such as;
 - Organizing trade fair appearances and creating trade fair concept including with ICP aligned choice and construction of exhibits (100k€+ invest)
 - Defining the ICP (Ideal Customer Profile)
 - Ideation & execution of a new target account structure
 - Creating industry differentiated sales collateral (e-mail sequences & LinkedIn Posts)
 - Automation of sales processes using Selenium (Python)
 - Developing and documenting guidelines and decision trees, for example for cold-calling & LinkedIn on Confluence
 - Overhauling the onboarding process
- Demonstrating outstanding independence in achieving challenging targets and OKRs (Objectives & Key Results), and exhibiting a strong work ethic, resilience, and exceptional ability to prioritize and manage competing demands, resulting in an average OKR achievement of 102%

At all times, Mr. Rieck showed a very high degree of own initiative, excellent motivation and strong commitment to his work.

Due to his quickness to grasp new topics as well as complex tasks and his pragmatic view of the essential, he was always able to develop creative and problem-oriented solutions on his own. Also, when working on difficult tasks Mr. Rieck demonstrated his outstanding analytical skills as well as ability to judge and stood out with an excellent quality of work, time flexibility and high resilience.

He worked accurately, reliably and to our utmost satisfaction at all times. Additionally, Mr. Rieck displayed a high willingness to perform even beyond usual working hours, which greatly surpassed our expectations. He presented his results in time in a structured, timely and thorough way.

Due to his friendly, cooperative and very helpful personality and his strong team spirit as well as effective communication skills he was highly appreciated among all colleagues and superiors. Furthermore, his behavior was exemplary at all times and met our expectations in the best possible way.

We genuinely thank Mr. Rieck for his convincing performance and his extraordinary commitment to our firm. We wish Mr. Rieck great success and all the best in every respect for his personal and professional future.

Tübingen, 02/16/2024
