Out of all applicants, why should **you** receive the selected WHU scholarship(s)? What makes you stand out? (max. 300 words)

excellent grades (1.1)
great improvement in 4th semester especially in mathematics
best pupil in mathematics atm
come from a non academic household => low income => university and career is very important
=> although social disadvantages with my parents i am going to graduate as one of the best in our
year
=> I showed also through the divorce of our parents (right before the Oberstufe) that i can adapt to
new circumstances really quick and call up great performances

Which experiences in a diverse environment have you had (gender, nationality, worldview etc.)? How will these impact your future actions and decisions? (max. 300 words)

Internships in Austria

Hereby, i was able to connect with foreign business people and understand the business better. therefore, it will be much easier for me to understand people and to connect with people in my compulsory internship abroad

AIESEC

IR: - I independently expanded our offer and international relations to non-European countries such as Sri Lanka through weekly interaction => therefore I was able to get to know people from all over the world and connect with them => understand their backgrounds => I was able to get on very well with you right from the start => Also at WHU

team: our team has 4 members including me, an arab, a Kazakhstan, and an Indian. It is really important to have a diverse team and to be cosmopolite, especially in a team, because if you are open to your team members you can create individual solutions and much better solutions, if you have people with different backgrounds.

Kinderschutzbund

Every pupil comes from a socially disadvantaged foreign family that immigrated to Germany. You have to understand the child first, because only if you know their story, you know what they have been through. (e.g. one of my kids nearly died bc of a bomb attack next to her house, or sb. else is persecuted in Syria, bc his family killed sb, so he has to hide in Germany to not being killed from the people there.) Therefore it is really crucial, to be cosmopolite and be kind to everybody, because you will see that every human being is just a normal man/woman ike yourself and you have so much in common. Diversity is very important!!
