

Internship (Junior Portfolio Analyst) – 40%

Your Role

This role offers a unique opportunity to gain hands-on experience in a professional investment environment and offers practical experience to complement your academic studies. We offer internships, where we are looking for a student interested in acquiring skills in a Junior Portfolio Analyst role to complement their academic studies.

Pursuing an internship as a Junior Portfolio Analyst, you will gain experience in:

- **Market & Research Monitoring:** Track alerts, research, and corporate actions to provide the team with timely insights.
- **Portfolio & Data Management:** Support investment reviews by updating portfolio metrics, maintaining data accuracy in our Portfolio Systems and CLM tool, and preparing monthly overviews and IPO lists.
- **Trade Support & Process Automation:** Assist with bond maturity replacements, prepare first-level trade sheets and post-trade checks, and help automate recurring processes (e.g., invoicing, chartbooks).
- **Monitoring & Reporting:** Assist with quarterly portfolio monitoring, fund reviews, and performance tracking
- **Ad Hoc & Project Work:** Draft investment memos and support automation or efficiency-enhancing projects.

Your Profile

- A motivated self-starter with strong attention to detail with a reliable, independent work ethic
- Excellent organizational skills and an interest in investment management
- Strong analytical and numerical skills, ideally with programming experience (Python, VBA, or similar) to help automate processes
- Bachelor's degree and preferably pursuing a master's degree in Banking, Finance, Computer Science, or a related field
- Fluent in English (German a plus)
- Based in Switzerland with a valid work permit
- Available to start within the next two months

What We Offer

- A unique opportunity to work closely with globally leading Tech Entrepreneurs and gain in-depth exposure to complex wealth strategies
- A collaborative and entrepreneurial environment that values initiative and discretion
- Varied responsibilities and the chance to grow your expertise across investments and offers practical experience to complement your academic studies

About Us

Genesis Investment Partners is a dynamic, independent, and FINMA-licensed multi-family office and asset manager based in the heart of Zürich. We act as a sparring partner to highly sophisticated clients in Switzerland and internationally. Our clients have pioneered breakthrough technologies in the 21st century – we provide them with peace of mind.

We offer a comprehensive range of services to our ultra-high-net-worth clients, including, but not limited to, investment management, support with real estate transactions, providing wealth and tax planning strategies, coordinating estate planning, and managing day-to-day financial affairs to ensure long-term financial security.

We are a young and dynamic team, offering ample opportunity for our colleagues to develop and grow into their roles and contribute to the firm's ambitions.

How to Apply

Please send your **CV, work reference letters, grade certificates and a brief summary** (maximum 100 words) outlining your motivation via E-Mail to manuel@genesis-ip.ch.
