

Application for the Bachelor in Business Studies at EBS Universität für Wirtschaft und Recht

Dear Sir or Madam,

In this letter, I would like to share why I am convinced that I am a suitable candidate for the Bachelor in Business Studies at EBS Universität. It is important to me that you not only consider my academic performance but also my mindset and my practical approach to the world of business and finance. I am eager to contribute actively to the EBS community, as I firmly believe that my commitment and passion will make a positive impact.

First and foremost, I am convinced that excellent grades alone do not define a person's potential. Especially in business and finance, practical experience, creativity, and an entrepreneurial spirit are just as important as theoretical knowledge.

I would like to illustrate this with my own example: When I visit a restaurant with friends, I don't just enjoy the meal. I start analyzing the business model behind it. I consider questions like: What are the operating costs? What is their pricing strategy? How do they manage their profit margins? And how could they optimize their processes to strengthen their market position?

This entrepreneurial perspective is not just an occasional thought—it is a fundamental part of how I see the world. I regularly engage with financial markets, explore investment opportunities, and develop ideas for business models. My experience in trading stocks and cryptocurrencies has further deepened my understanding of market dynamics and risk management.

At EBS, I want to build on this mindset, develop my academic skills, and gain practical experience. One of the areas that excites me most is the opportunity to participate in initiatives such as **EBS Invest** or the **student consultancy**. Combining my entrepreneurial thinking with project work in consulting or finance would be an ideal environment to learn from real cases and expand my competencies.

Sports have also played an important role in my personal development. I have been playing tennis for many years and was the city champion of Aschaffenburg and the regional champion of Unterfranken. These experiences taught me the value of discipline, perseverance, and teamwork. In addition to tennis, I train regularly in the gym and enjoy running, which helps me maintain a balanced and focused mindset. I am confident that this dedication to sports and self-improvement will also enable me to contribute positively to student life at EBS.

I am convinced that my entrepreneurial mindset, my enthusiasm for finance and business, and my determination to actively engage in the EBS community will make me a valuable member of your institution. I am highly motivated to contribute to the unique and ambitious spirit of EBS and to grow both personally and professionally within this inspiring environment.

Thank you very much for considering my application. I look forward to the possibility of studying at EBS and to making my own contribution to its dynamic community.

Best regards,
Julius Krenn
