

Internship - Strategy M&A

Job description

As an integral part of Infineon's global corporate strategy, the Strategy and Market Development team are keenly focused on the fast-paced Asian markets, and are actively developing Infineon's presence in the key growth markets. We are looking for dynamic and highly motivated interns to support our market / business intelligence research and strategy development activities. Interns will report to the Head of Strategy and Market Development Asia Pacific.

In your new role you will:

- Undertake responsibilities that involve a **blend of desk and field research**
- **Project definition, data gathering and analysis, and development of strategic recommendations** on top-level strategy issues
- **Track and report** relevant macro-economic / policy / market / competitor / customer **developments** in the **Asia Pacific region**
- **Conduct assessment** of competitor data / activities / organizational **set-ups in Asia Pacific**
- **Analyze market reports** of the Asia Pacific semiconductor market segments relevant to Infineon

Learning Outcomes:

The internship provides the unique opportunity to gain **deep insights into the strategy function of a DAX-30 multinational company**, with specific learnings related to the various Asia Pacific market segments for semiconductors and electronics whilst interacting with colleagues from various operational functions and cultures within an exciting and vibrant work environment. By the end of the internship, candidates will have worked on a variety of projects, gaining hands-on experience in several areas:

- **Project management**, working with team members across various locations and functions
- **Business intelligence research and data gathering** through online and offline sources, including **desk research and interactions with various stakeholders**
- **Data analysis** and **correlation** with operational and strategic business outcomes
- **Development of strategic recommendations and preparation for reviews** with senior management

Profile

You are best equipped for this task if you have:

- Bachelor's / Master's degree student in **Business Administration, IT / Computer Science & Computer Engineering, Economics, Electrical & Electronic Engineering, Industrial Engineering**
- Proficiency in **MS Excel** and **MS PowerPoint**
