WORK EXPERIENCE

Gesellschaft für Sicherheitstechnik mbH

06/2025 – present

Project Leadership – Business Continuity Management (BCM), in Mülheim – Germany

- Coordinating a cross-functional project team including executive management, IT leadership, operational staff, and an external consulting company, ensuring strategic alignment of objectives, timelines, and deliverables
- Leading the identification and prioritization of critical business processes, value-chain dependencies, and operational risks across all departments
- Contributed to an estimated 40% reduction in identified single points of failure by establishing structured continuity and escalation frameworks
- Translating risk and process analyses into structured decision inputs for management, supporting resilience, continuity, and long-term organizational stability

Gesellschaft für Sicherheitstechnik mbH

01/2024 – present

Procurement & Supply Chain Management, in Mülheim – Germany

- Accountable for annual procurement volumes of > 1,000,000 € and inventory portfolios with a total value of approx. 500,000 €, balancing cost control, availability, working capital efficiency, and operational risk
- Coordinating core supply chain processes, including supplier management, demand planning, and stock optimization
- Leading onboarding and training of new employees and mentoring apprentices within procurement and operations
- Proactively adjusted procurement and inventory strategy in response to geopolitical supply chain disruptions (Houthi conflict, Bab el-Mandeb Strait), increasing stock levels of critical materials to secure delivery capability and maintain a competitive advantage

Delivered via programs hosted by FOM University of Applied Sciences for Economics and Management, and BildungsCentrum der Wirtschaft gGmbH, in Duisburg and Essen – Germany

06/2025 – present
