EMPFEHLUNGSSCHREIBEN

In my capacity as Event Manager at EBS University, I would like to express my strong recommendation for Mr Alexander Lamm to pursue a master's degree at your university. Mr Lamm has supported me over a long period of time in the organisation and implementation of numerous events at our university. He has always been extremely committed, reliable and responsible. His structured and forward-thinking approach to work, as well as his professional demeanour, contributed significantly to the smooth running of our events. His warm personality made all guests and staff feel particularly comfortable – his positive, hands-on mentality was an example and driving force for other student helpers.

I would particularly like to highlight his ability to maintain an overview even under time pressure, to react flexibly to short-term changes and to always act in a solution-oriented manner. In addition, his ability to work in a team was exemplary – he always worked constructively and respectfully with both students and colleagues from various departments. On a personal level, I particularly appreciate his absolute honesty – a quality that is not often found these days.

I have come to know Mr Lamm as a highly motivated, eager to learn and thoughtful young man who has shown great commitment to his tasks and a high degree of initiative. His dedication went far beyond the usual, which is why we will sorely miss him here at EBS.

I am convinced that Mr Lamm's personality and commitment will be a great asset to your master's programme, and I therefore recommend him to you with complete confidence.

Kind regards,

Pfeffer, Christine (EBS)
