Student Assistant Position with Jun.-Prof. Dr. Holly Dykstra

Time frame: 01. September 2025 – 30. September 2026, with extension possible

Hours:

- September 2025 - February 2026: 40 hours/month
- March 2026 - September 2026: 20 hours/month

We are looking for a Bachelor or Master's student in Economics or a related field who is interested in a student assistant position with Professor Dykstra in Behavioral Economics. This is a great opportunity for students interested in academic research.

Duties:

- Weekly online check-in meetings as schedules permit.
- Developing and implementing experiments using Qualtrics, MTurk, and Prolific.
- Data analysis using Stata, including coding, data preparation, and results interpretation.
- Assisting in writing and editing research materials, research proposals, and academic papers.
- Finding and summarizing relevant academic papers for ongoing projects, as well as maintaining a reference list using Zotero.
- Assist with teaching-related tasks, such as preparing slides or organizing course materials.

Previous experience with the software mentioned above is not required, but an interest in learning them is! Previous exposure to behavioral or experimental economics is helpful but not required. We welcome applications from students who are proactive, detail-oriented, and enthusiastic about research.

If you are interested, please apply by sending your resume/CV as well as a list of your coursework and grades to holly.dykstra@uni-konstanz.de. Please send your application by **Friday, June 27, 2025**. Feel free to contact Professor Dykstra with any questions.
